

DR Upgrades – from 6th January 2022

Our acclaimed Discrete Regulator Technology was first introduced in 2012, and features across a range of products from power supplies and amplifiers, up to our flagship Statement.

Since its introduction, and in keeping with an on-going commitment to the sustainability of Naim hi-fi, we have offered upgrades to the DR spec from previous, non-DR versions of Classic and 500 Series products.

Our commitment to offer DR upgrades to these older models continues, but as introduced in 2019, we continue the policy only to perform this with the products also going through a full service, to ensure consistent performance and maximum reliability. This involves replacing electronic components, such as capacitors, that benefit from being refreshed over time.

Part ID	Part Description	List Price Inc VAT
01-006-0438	Update, NAP 250-DR, Service Option	£1,949
01-006-0470	Update, NAPS 552-DR, Service Option	£3,899
01-006-0468	Update, Supercap-DR, Service Option	£2,599
01-006-0471	Update, NAPS 555-DR, Service Option	£3,249
01-006-0440	Update, NAP 500-DR, Service Option	£7,149
01-006-0439	Update, NAP 300-DR, Service Option	£2,599
01-006-0370	Update, NA XPS-DR £1,329.00	£1,107.50
01-006-0469	Update, Hicap-DR, Service Option	£1,299

Please note, the servicing element of the above only includes the particular product unit that includes the DR module itself, not any ancillary unit, such as a power supply. For example, the NAPS 552 DR update and service does not include the service of the NAC 552. These secondary units can be serviced at the same time as the DR and Service Upgrade, at standard service pricing. D
